Organisations who have multiple staff using the Bulk Payments service can limit the visibility of sensitive payment files. e.g. Staff payroll.

After a payment file has been uploaded use the '**File contents visibility**' option to select who should have access to view the file contents.

Note:

- · All signatories on the account will still be able to see the total file value.
- The option to limit file contents visibility will only be available if there are more signatories on the account than the total number of signatories required to approve payments.

The upload confirmation screen will be displayed. Choose 'Accept Payment'.
